

SCOPE OF LABORATORY ACTIVITIES

SITENO	Standard	Std Year	Activity	Service	Product	Determination	Technique	Procedure
2952	ISO/IEC 17025	2005	Environment	Analysis for asbestos and synthetic mineral fibres	Filters	Asbestos	Membrane filter method	National Occupational Health and Safety Commission Guidance Note (2005) Supplementary work instruction in-house AS 101
2952	ISO/IEC 17025	2005	Environment	Analysis for asbestos and synthetic mineral fibres	Bulk samples	Amosite; Chrysotile; Crocidolite; Organic fibres; Synthetic mineral fibres (SMF)	Polarised light microscopy (including dispersion staining)	AS 4964 Supplementary work instruction in-house AS 102
2952	ISO/IEC 17025	2005	Environment	Analysis for asbestos and synthetic mineral fibres	Air	Volume measurement	Membrane filter method	National Occupational Health and Safety Commission Guidance Note (2005) Supplementary work instruction in-house AS 101
2952	ISO/IEC 17025	2005	Environment	Analysis for asbestos and synthetic mineral fibres	Soils	Amosite; Chrysotile; Crocidolite; Organic fibres; Synthetic mineral fibres (SMF)	Polarised light microscopy (including dispersion staining)	AS 4964 Supplementary work instruction in-house AS 102
